

The impact

Through waste reduction London Drugs has reduced their garbage waste by 25%

Planning

Form a Green Team - get together a group of people who want to help your business's sustainability

- Choose a champion to keep the team together and organized
- Gather feedback and ideas to determine priorities
- Create an Action Plan to assign tasks and schedule timelines

Get support - make sure you have the support and resources to accomplish your goals

- Discuss the project with management—make sure they are on board with changes and keep them informed of your progress
- Involve janitorial staff—they deal with waste on a regular basis and can provide insight into planning and implementation
